

# Tired of reformatting your work & wasting time? Looking for a one-stop solution to analyzing, visualizing & preparing your work for publication?

Researchers from all fields & career levels are welcome to bring **their own** research data/work to the **Quarto & R Markdown Workshop @ UniMail 4020 on November 7th (13:30-16:30)**

## With Quarto/R Markdown, you can create:

-  Dynamic Reports: Seamlessly integrate code, results, and narrative.
-  Beautiful Visualizations: Generate stunning graphs and figures directly from your data.
-  Reproducible Manuscripts: Ensure your work can be easily reproduced and shared.

## At the Workshop, you'll learn:

- The basics of Quarto & R Markdown
- How to prepare **your ongoing work** with these tools
- How to share your output in a **reproducible manner**

*The virtual portion of the workshop is open to everyone, but the hands-on session is in-person & places are limited! Register here or scan the QR:*
